Two fellows are on the general ID consult service at any given time, alternating days on call during the week.

Please note: HIV continuity clinic is **either** Monday or Thursday morning for each fellow

Weekend work schedule is left to the discretion of the on-service fellows. Typically one person has off both weekend days and works the subsequent weekend.

## Sample Schedule for Transplant ID Consult Fellow

One fellow covers the transplant service Monday through Friday and does not work weekends

Please note: HIV continuity clinic is **either** Monday or Thursday Morning

In general, times for follow up rounds and new patient rounds are dependent on the attending's schedule and more flexible as the number of new consults and total patients is typically less than the general ID service
