

# Expectations & Validation Form (Clinical)

Please review this with your site coordinator upon arrival so he/she is aware of Expectations for our Temple students.

At the end of the rotation, please have him/her sign the form to validate the competency-based expectations.

Please return this form to Gina Ralph at least 4 weeks after your return.

## Expectations

### *Professionalism:*

The student shows up on time, dresses professionally, is respectful of patients and health care workers in an ethical and culturally sensitive manner. At least 18 work days of 8 hours per day is the expected professional time commitment.

### *Patient Care:*

The student provides compassionate care to promote patient health; gathers essential and accurate information; makes informed decisions about diagnostics and therapeutics; counsels patients/families; and creates patient management plans.

### *Medical Knowledge:*

The student is able to create a differential diagnosis; demonstrate knowledge regarding established practices and apply this to clinical practice.

### *Interpersonal Communication & Skills:*

The student effectively communicates with patients/families/health care team; and establishes therapeutic rapport with patients.

### *Practice-Based Learning & Improvement:*

The student must investigate and evaluate their patient care practices; appraise and assimilate scientific evidence; utilize information technology to support education; facilitate the learning of others; and perform evidence-based care.

### *Systems-Based Practice:*

The student can identify health care resources to provide optimal care; understand health care delivery systems; and advocate for quality patient care.

## Expectations & Validation Form (Language)

Please review this with your site coordinator upon arrival so he/she is aware of Expectations for our Temple students.

At the end of the rotation, please have him/her sign the form to validate the competency-based expectations.

Please return this form to Gina Ralph at least 4 weeks after your return.

### Expectations

#### *Professionalism:*

The student shows up on time, dresses professionally, and is respectful of educators and other learners in an ethical and culturally sensitive manner. At least 18 work days of 8 hours per day is the expected professional time commitment.

#### *Patient Care:*

If applicable, the student promotes patient health; gathers essential and accurate information; and helps to counsel patients and families.

#### *Medical Knowledge:*

The student is able to demonstrate language proficiency, recall of learned information and pertinent application of vocabulary, grammar, tense and pronunciation.

#### *Interpersonal Communication & Skills:*

The student effectively communicates with educators and other learners in a culturally sensitive manner.

#### *Practice-Based Learning & Improvement:*

The student must investigate and evaluate their language skill practices; appraise and assimilate new learning; utilize information technology to support education; and facilitate the learning of others.

#### *Systems-Based Practice:*

The student can identify language resources to provide optimal proficiency.
