

Customized Funding Opportunities and Alert System

SPIN database, SMARTs and GENIUS are within the eRA@TU application. They appear at the top of the page when you sign in.

SMARTS is an e-mail alert system that allows investigators to receive e-mail notifications about funding opportunities matching their specific requirements.

If you would like to receive SMARTS e-mail notifications, and you have a TU AccessNet login and password, then you will be able to access the SMARTS system and start the notification process.

BELOW ARE THE STEPS TO ACCESS THE APPLICATION

1. Go to <https://eraapp2.ocis.temple.edu>
2. Click on the "Login" link.
3. Authenticate with your TU AccessNet and password.
4. At the top of the page, select the tab called **\$Find Funding**.
5. The landing page gives you multiple options to search for funding and get immediate one-time feedback using SPIN.
6. If you want to receive e-mail notifications about funding, select **Funding Alerts**, enter your keywords, then choose your preferences (e.g. how often you would like to be notified).
